

THE MOST *spectacular place* IN THE RIVIERA MAYA

Groups

RÍO SECRETO®

When I thought I had seen it all, I discovered that I still knew nothing. Until that moment, I had missed out of the supreme experience. Everything I had learned in my life made sense only by witnessing what was right in front of me.

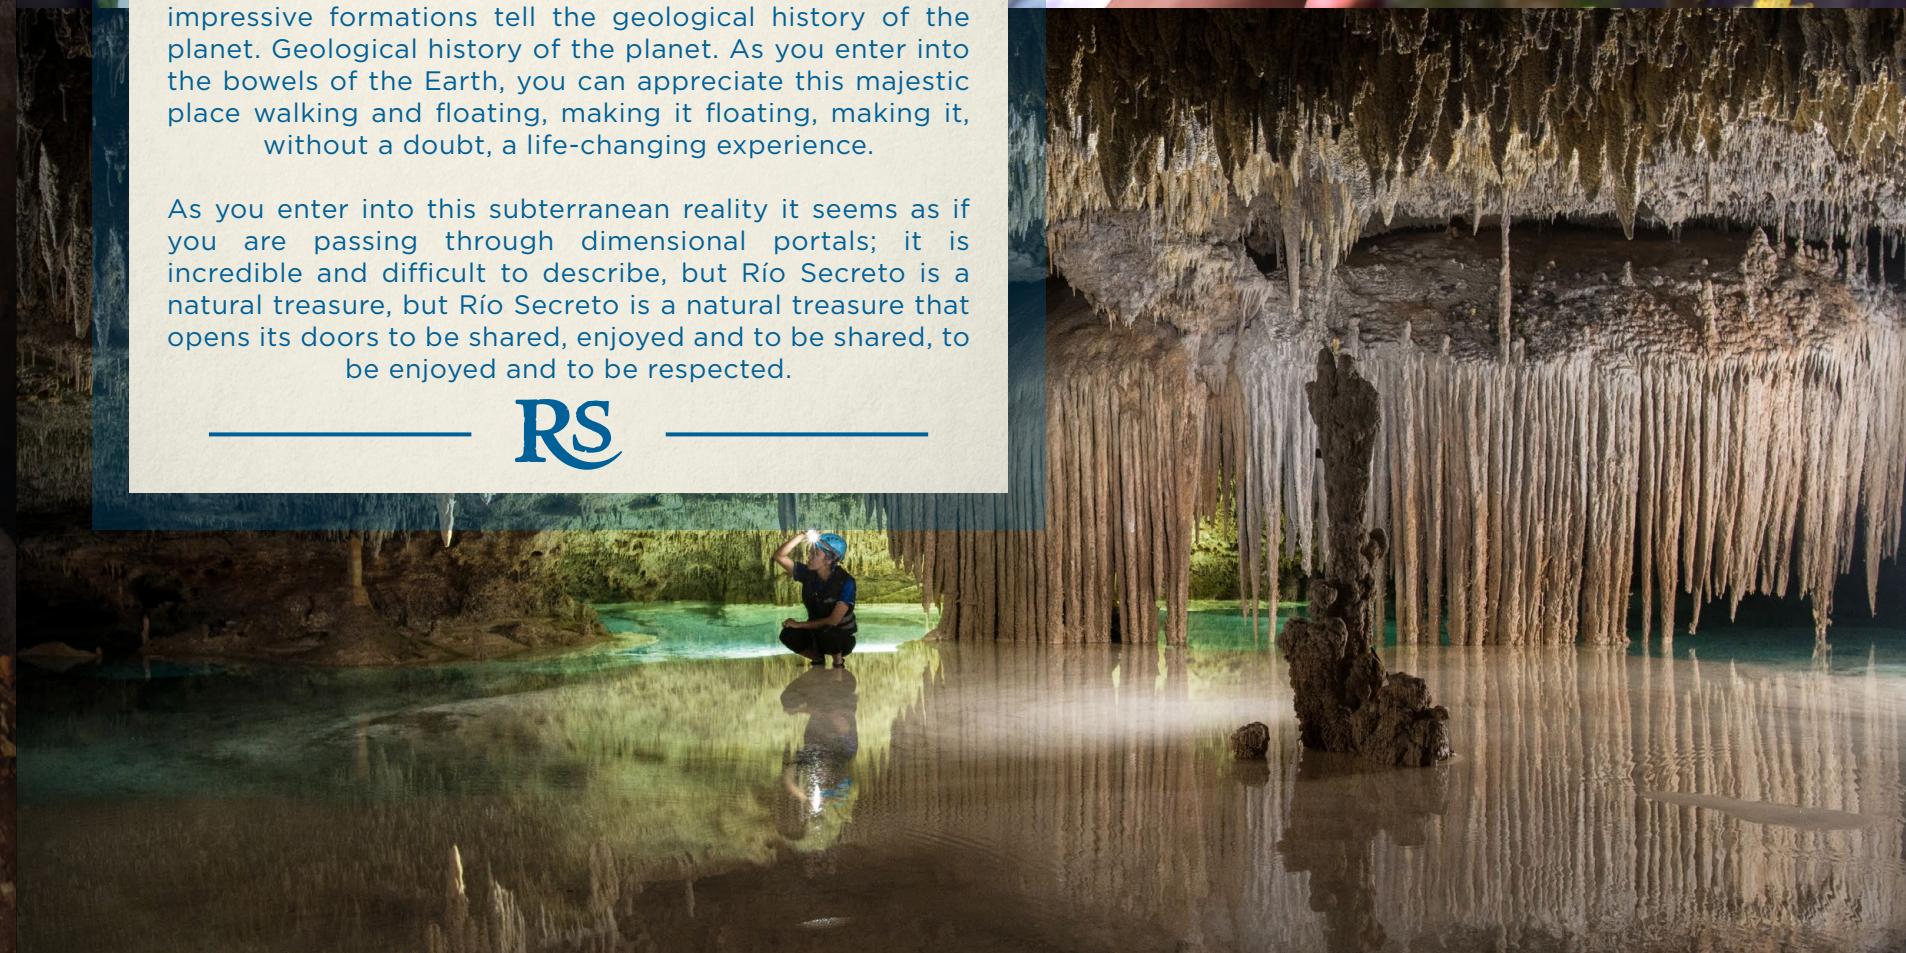

During the last ten years, Río Secreto has become one of the most important and prestigious and prestigious tourist attractions in the country.

Río Secreto is a journey through a crystal museum, whose impressive formations tell the geological history of the planet. Geological history of the planet. As you enter into the bowels of the Earth, you can appreciate this majestic place walking and floating, making it floating, making it, without a doubt, a life-changing experience.

As you enter into this subterranean reality it seems as if you are passing through dimensional portals; it is incredible and difficult to describe, but Río Secreto is a natural treasure, but Río Secreto is a natural treasure that opens its doors to be shared, enjoyed and to be shared, to be enjoyed and to be respected.

RS

Wellness EXPERIENCE

Discover this millinery world that has been kept in silence
listen to it and vibrate with it.

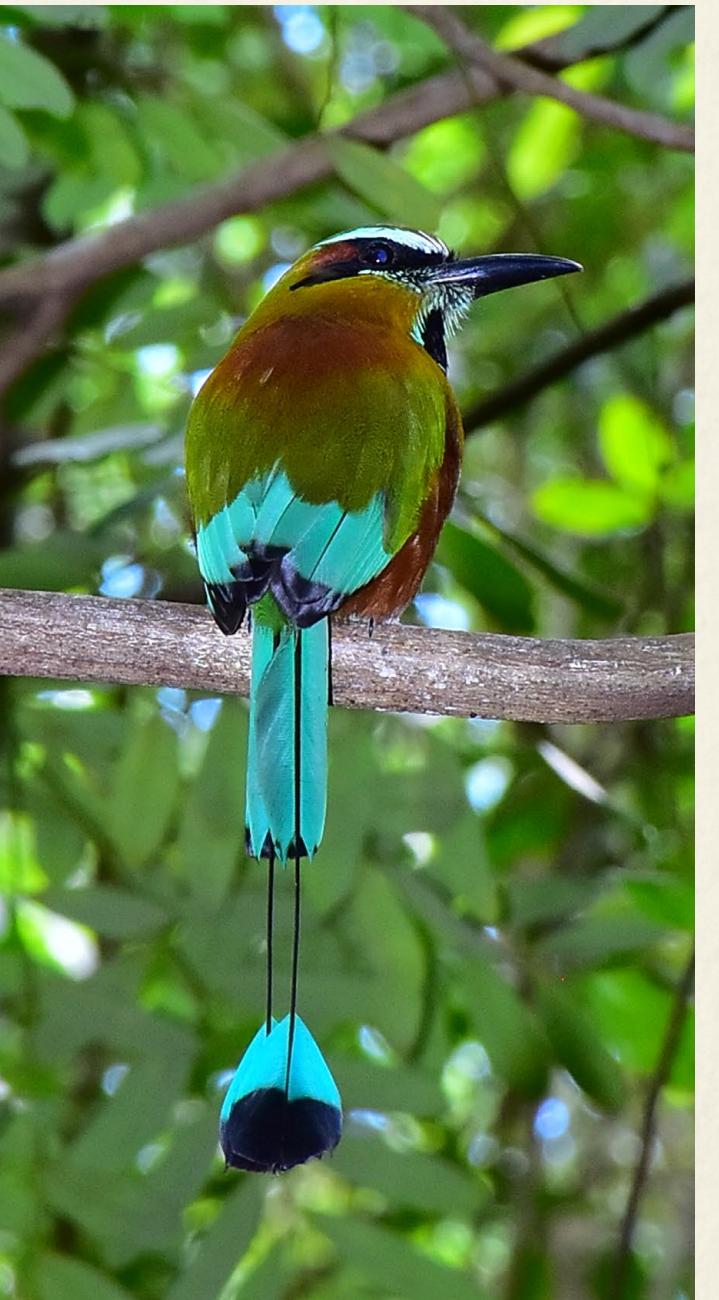

SUSTAINABILITY

Employment generation and fair trade.

Many of our employees have learned different trades thanks to their origins in small communities. **Río Secreto** is interested in supporting our people and includes some organic products for the consumption of our visitors.

- › We give preference in hiring people who are originally from people who are originally from neighboring municipalities, with the to improve the quality of life of the community the quality of life of our host community.
- › We give preference to the purchase of local and environmentally friendly and environmentally friendly products. Most of our suppliers are regional and some national.

SOCIAL RESPONSIBILITY

Jaguar Wildlife
Center A.C.

The civil association Jaguar Wildlife Center works in our Natural Reserve to monitor wildlife and conserve the vegetation cover, which is crucial to maintain the aquifer and the food chain that includes endangered species such as the jaguar and spider monkey. Thanks to the specialized photo-trapping equipment, have been captured images of specimens such as the puma, jaguar, jaguar, and spider monkey, ocelot among others.

In addition to this, they are responsible for providing environmental education to sensitize people about the importance of environmental conservation, proposing concrete actions in schools, ejidos, events and/or festivals. Together with Jaguar Wildlife Center, we are convinced that individual change is fundamental to achieve social change, that is why it is important that each one of us participate in the environmental proposals and needs.

COMPETITIVE ADVANTAGES
